Introduction

A pathfinder is a guide to the resources in a particular subject area in the library. It is an instruction/research tool designed to encourage researchers to do a self-directed use of the library.

The Social Sciences Library provides pathfinders basically to support students and faculty in their search for recorded literature and resources available at the USC Library System and accessible on the Net.

Should you have comments, questions and suggestions on this pathfinder, please contact Social Science Library at 2300.100 local 270 or email to socialscience_jblrc@yahoo.com.
Key Term: **Developmental Psychology**

Scope Note: Developmental Psychology (DP) may be broadly defined as the scientific study of systematic changes of an organism’s behavior and the psychological processes that behavior reflects. Developmental psychology is one of the main branches of psychology, and as such it subsumes a number of subdisciplines including child psychology, adolescent psychology, life-span psychology and human development. (Source: *The Corsini encyclopedia of psychology* v.2 / edited by Irving B. Weiner, W. Edward Craighead. 4th edition. c2000. 150.3 C81 v.2, GenRef Book, 1st floor, JB-LRC)

Use For:
- Development (Psychology)

Broader Term:
- Development psychobiology

Related Term:
- Life cycle, Human

Narrower Term:
- Age (Psychology)
- Aging – Psychological aspects
- Attachment behavior
