Books are the carriers of civilization. Without books, history is silent, literature dumb, science crippled, thought and speculation at a standstill. Without books, the development of Civilization would have been impossible. They are the engines of change, Windows on the world, Lighthouses (as the poet said) Erected in the sea of time. They are companions, teachers, magicians, bankers of the treasures of the mind. Books are humanity in print.

- - Barbara Tuchman- -
